## About Us

Footwear is an eminent part of peoples lifestyle. Comfortable yet fashionable footwear represents the personality of a person. With a motto to provide footwear to all classes of people in India, M.B Engineering Works (Regd.) presents a comprehensive range of footwear making machines. Incepted in the year 1970, we are a reputed manufacturer and exporter of a long lasting and durable range of such machines as Vertical Injection Moulding Machine 1000 VRT, EVA Forming Machine Single Station, EVA Forming Machine Double Station, RAM 1200 VRT for Gum Boots, and many such machines. With these machines, it is possible to make compact PVC/Foam Slippers & Sloes, Gum Boots and Safety Shoes, etc at competitive prices. Our machines can also be used in making Auto Parts, Sanitary and Electrical Pipe Fittings etc.

With a mission to enable people to walk with comfort and elegance. Our machines have the capability to achieve these twin features. Delivering these machines on time and offering them at competitive rates, we strive to achieve total customer satisfaction. Our tenacious and honest approach has enabled us to create clientele that includes names like Bata India Ltd., Action Shoes, Lakhani Shoes, and many other prominent entities. We export our products in various countries like Nepal, Sri Lanka, Bangladesh, Singapore, Afghanistan, Yemen, Nigeria and Gulf nations. Some of the organizations with which we are associated and are a proud member include All India Plastic Industries Association (AIPIA), All India Federation of Plastic Industries (AIFPI), Indian Footwear Components Manufacturer's Associations (IFCOMA) and Confederation of Indian Exporters.

## Quality Assurance

Quality is the cornerstone that drives us towards growth and customer satisfaction. M.B Engineering Works (Regd.) takes great care in ensuring that the machines are as per national and international standards. These machines are checked repeatedly for their strength, durability and longevity. Every part of the machines is doubly checked to ensure that they are in proper working condition. The entire manufacturing process is observed closely by a team of extremely efficient quality control inspectors. Their vigilant eyes and a detailed knowledge helps in developing superior quality machines, which are flawless.

# Our Products

**Travel Clicker Machine**

**Swing Arm Machine**

**Waste Grinder**

**Air Compressor**

**Rotary Platform**

**Single Station EVA Forming Machine**

**Double Station EVA Forming Machine**

**Vertical Injection Moulding**
